our standard*

AUER Hydraulics GmbH

Pressure gauges "glycerine filled"

Suitable for use on all systems, pumps, compressors, machine tools, high pressure cleaner and cooling systems. Suited to measure high dynamic pressure and vibrations.

- Housing CrNi steel
- particularly robust
- resistant
- reliable
- according to EN 837-1
- Norm sizes 40 / 63 / 100
- -1 bar up to +1000 bar
- higher pressures on request

AUER Hydraulics GmbH Höhscheider Str.21 D-42699 Solingen Germany
